

# 4 in 1 Portable Air Conditioner

(COOLING, HEATING, DEHUMIDIFYING, FAN)

## Advantages

A revolutionary innovation, the Enstar Portable Air Conditioner is slowly but surely replacing conventional Room Air Conditioners throughout the world. The current trend and popularity of portable air conditioners actually originated in Europe, but it is now quickly spreading throughout North America. The Enstar 4 in 1 Portable Air Conditioner can deliver climate conditioned air directly to the spot, zone or person that requires it, without the problems associated with a permanent installation. And because it is portable, it can be easily moved as needs change. These characteristics help make the Enstar Portable Air Conditioner more effective, energy efficient and labor saving, helping you save money. Enstar Portable Air Conditioners are used worldwide in a variety of applications. These include hot spots in main or vacation homes, basements, computer rooms, home offices, commercial offices (after hours), areas requiring super-cooling, or virtually any application that has specific cooling needs. The user pays less for more.
